

## November Block of Month - Topiary

### Templates E and F

Cut out rectangle along dotted lines

Smear the backside of template outlines with a glue stick

Adhere to heavy paper such as poster paper or a cereal box, smooth flat

Cut templates E and F along outer line

\* *Templates must be accurate. Test your printer with the measurements of the dashed rectangle below.*

### Template D

1. Cut three pieces of freezer paper approximately 6" x 6"
2. Iron all three together, placing the shiny side to the dull side  
You will have a thick piece with one shiny side and one dull side
3. Cut out the rectangle on the dotted lines that surrounds template D
4. Smear the back of the circle with a glue stick, especially along the outer line
5. Adhere to the dull side of your thick freezer paper
6. Cut out the circle template D
7. Iron the shiny side of your template D to the backside of your fabric
8. Cut out D with an added 1/4" seam
9. Spray a pool of starch on a paper dish, dip a Q-tip into the starch, apply it on the 1/4" seam (*Mary Ellen's Best Press* starch works well)
10. Press the wet seam towards the center of the circle
11. Allow it to dry, a wood piece on top, will further help to make the edges crisp
12. Remove the freezer paper, press your circle again
13. Place a small pool of washable white glue on a paper dish, using a toothpick, apply small dots of glue to about twenty spots of the seam allowance only  
Place on desired area of your background, iron in place
